USB ADAPTER FOR CRATE CONTROLLER 217.10

Adapter connects the CAMAC crate controller 217.10 with PC by **USB-2.0** bus. Adapter uses the microcontroller **CY7C68013A** as a core. Adapter was tested under control the **Windows XP** operational system. The software development kit, shipped together with the adapter, allows to develop the user-designed software in frame of **Visual C++ v6.0** integrated environment. It is possible to use the crate controller in command by command mode and as a sequencer.

- [USB_21710hh_ref:](#)

Hardware short manual of the camac crate controller 217.10 (see russian version)
(Controller 217.10 is register compatible to the **DSPT 6001/6002**).

- [USB_21710sss_ref:](#)

USB adapter short software manual (see russian version).
